PROFILE OF THE COMPANY

The initial business activities of the Company **HASPO SYSTEM Ltd.** go back to the early 90-ies, when we started under the different trade name at the local market with the different versions and applications of the unit furniture.

The Company works from the year 1994 in the current form and with the current orientation. Thanks to the purchasing of modern CNC machinery, control systems and specializations, the Company has became one of the biggest furniture producers and it has become a renowned specialist in the area of kitchen, office, school, medical and hotel furniture. **HASPO SYSTEM** Company started its business activities with five people, but currently our team consists of eighty employees.

Thanks to the high accuracy of our products we can afford to deliver to our clients the furniture in the form of separate elements packed in the cardboard and assembled "on the spot". We also offer a separate production of the segments according to the drawings submitted by our customers.

The permanently growing export to the EU countries secured for twelve years already is the proof of the quality of our products.

Certificat EN ISO 9001: 2000

TECHNICAL DESCRIPTIONS

TABLES

Desktop – thickness 25 mm, ABS edges 2 mm or sandstone plate – thickness 50 mm.
Glass writing underlay – mat-surface glass Connex – thickness 9 mm.
Metal legs in black and silver colour.

CABINETS

Body and doors - thickness 18 mm, top and bottom – thickness 25 mm.
ABS edges 2 mm.
Glass door – frosted glass Satinato in the aluminium frame.
Back - thickness 8 mm, in the same pattern as the body.
Vertical adjustment by means of the legs.

PEDESTALS

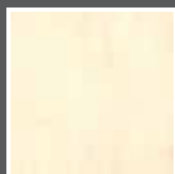

Melamine faced chipboards – thickness 18 mm, ABS edges 2 mm.
Central lock with the blocking system ensures opening of only one drawer at once.
Rollers 65 mm.

GENERALLY

The melamine faced chipboards and the ABS edges guarantee that the furniture is resistant against any mechanical damage.
